

East Sussex Highways

Surface Dressing

I am writing to let you know that our surface dressing programme begins in the next few weeks, working on over 30 roads across the County in just two weeks. The works start on 11th July and run through to the 24th July.

You can find out more information on the process of surface dressing and our programme of works on our website:

<https://www.eastsussexhighways.com/surface-dressing> Please be aware that these works are extremely weather dependant and so we can work either behind or ahead of programme on occasion. We will however keep customers updated via our website and the signs on site.

Please do not hesitate to contact me should you have any questions about this.

Kind regards
